1 November 2017

Dear students,

Heidelberg University is glad to invite you to its third:

*Students' Academy of Sonography Heidelberg*

We are a group of medical students in their clinical years with much experience in ultrasound diagnostics. In cooperation with professors of our university we have designed a one-week sonography summer school for international third- to sixth-year medical students.

The week you will spend with us will not only be an ultrasound course, but much more an international student exchange - a hiking trip and pub crawls included!

For further information about the course and how to apply, please read the brochure enclosed.

If you have any question, don't hesitate to contact us ([sash.heidelberg@gmail.com](mailto:sash.heidelberg@gmail.com))

Yours sincerely,

Stefano Malvestiti, Jens Rudolph, Philipp Theis  
on behalf of the team of SASH
