#### **DENTALNA MEDICINA - teme predavanj**

| <b>Številka teme</b> | <b>Tema</b>                     |
|----------------------|---------------------------------|
| 1                    | Uvod, preiskovalne metode       |
| 2                    | Motnje sluha                    |
| 3                    | Motnje ravnotežja               |
| 4                    | Poškodbe nosu in epistaksa      |
| 5                    | Vnetja nosu in obnosnih votlin  |
| 6                    | Patologija ustne votline        |
| 7                    | Patologija žlez slinavk         |
| 8                    | Tumorji nosu in obnosnih votlin |
| 9                    | Tumorji žrela                   |
| 10                   | Tumorji grla                    |

|    |                            |
|----|----------------------------|
| 11 | Vnetja grla in hripavost   |
| 12 | Glasovne in govorne motnje |
| 13 | Vnetja žrela in zapleti    |
| 14 | Otekline na vratu          |
| 15 | Dihalna stiska             |
